# Service Catalog Activity

Simulator Task

## INSTANCE STATUS

Running

[Terminate Instance](#)

[Open My Instance](#)

## Your instance will expire in...

13 Days 21 Hours 53 Minutes

[Request Expiry Extension](#)

## SIMULATOR SCORE

100% passed

**Task Result:** *Success*

Task validation successful!

## Realize the Benefits of Service Catalog

Your company mobile phone is no longer working after a rough drop.

Order an **Apple iPhone 6s Plus** from the Service Catalog to replace it. You will require an *unlimited* data allowance with *128GB* of storage.

-----

Upon completion of these tasks, select the **Validate Task** button. If the validation fails, refer to the recommendations for hints.

If you continue to have difficulties completing the activity, you can find additional hints by going to your Simulator Instance and navigating to the **Simulator Task Information > Service Catalog Activity** module.
